PRIMARY FEATURES

RL-H4C

Multi Purpose Laser

Grading, excavating and general construction projects are perfect applications for the RL-H4C. With the added "Slope Matching" feature you can check grade on all your flat and slope work.

The 600 rpm rotation speed makes the RL-H4C a great match with any machine mounted laser sensor. Wherever you need an accurate, horizontal laser, the RL-H4C is your best solution.

Easy To Use

With electronic self-leveling you hit the Power Button and go right to work in seconds. If your RL-H4C gets disturbed on the job it relevels itself automatically. Its super fast self-leveling motors are accurate to ± 10 arc seconds.

Long Range Operation

Need to shoot elevations up to 1,300 feet from your laser? No problem. This instrument has the power and range to cover a 2,600 ft. diameter jobsite.

Long Battery Life

The RL-H4C gives you the option of 60 hours of continuous usage with the Rechargeable Battery Pack or 100 hours with (4) D Cell Batteries.

All Weather Dependability

With the IP66 rating, the RL-H4C is "jobsite tough" and can withstand dust, a sudden shower and even torrential rainfall.

Five Year Guarantee

The RL-H4C Laser comes with a Five Year Guarantee. Topcon is backing up this reliable, accurate laser with the best factory warranty in the industry.
